

PUZZLEBOMB

MIRROR MAZE

Position six double-sided mirrors, three slanting in each of the two diagonal directions (leaving three cells empty) so that a laser beam pointing straight into the grid from any letter would reach its matching letter.

SET PIECES

Split the words into 3 groups of 3, so that the concepts connecting each group also have a connection.

- brandy
- brooklyn brown
- christmas
- jack jaden
- jenever
- kiefer mezcal

SPELLING BEEES

In each honeycomb find two paths, starting and ending in coloured cells and visiting every cell once, that each spell out a word or phrase. The bee hides two different letters in each honeycomb.
