

PUZZLEBOMB

SLEIGH TRACKS

Draw a path for Santa to deliver a present to every house. He cannot fly over a house or elf twice, or move diagonally. He starts with the number of presents given and must have an empty sleigh when visiting an elf to re-stock. He must visit one house with a mince pie & whisky before each re-stock, and during his final delivery leg, which must finish at the edge of the grid.

CRACKERS

Each cracker contained a seven-letter word, but the middle letter of each was lost when they were pulled. Work out which halves are from the same cracker, and rearrange the middle letters to work out what cheap gift they contained.

EIGHT EVENTS

Each word or phrase is an anagram of a thematic term, seven of which have an extra letter which needs to be removed. The removed letters will spell out the one that's missing.

- VERNIX
- NON-RUDE
- SHARDED
- PEAR CORN
- TELCOM
- CARP END
- HEINZ BLT
