ARITHM' & CLUES:
by @outoffnorm2.

ARITHM' & CLUES

All five cryptarithmic puzzles use the same nine letters to represent the digits 0-9, and each word is clued. Alistair says: "The idea is to do the hints, then insert the hidden nones to nines that add."

+					Insects					Concealed		
+					Ransack		×				Information	
					Collection						String	
-					Cook						Chuck	
-					Source		+					Changed
					Fasts						Deleted	
					Gentler							
+											Inked	
											Past-botherer	

APIS CLUES

Here are five cryptic crossword clues. You must solve the clues, then find the connection between the answers.

APIS CLUES: devised by @apisclues.

1. Domain, TLD, path (7)
2. Bee food that is extracted in parts from spoiled creatine (6)
3. Admit getting stuck into cheese cake (7)
4. Socialist leader hacked off following discussion (7)
5. Chew twigs there, losing energy and mixing with a bunch of losers? (6,8)
