PHRASETRACER:
conceived by @stecks,
set by @apaultaylor.

PHRASETRACER

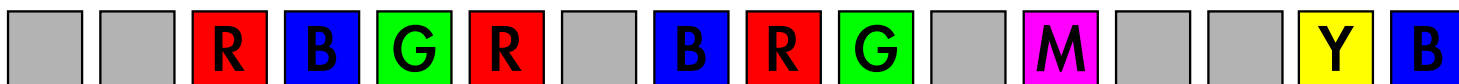

Each grid contains a phrase, given by the clue, which runs from square to square moving horizontally or vertically, starting and ending in the marked cells. Each row and column is labelled with the sum of the letters found in that row or column, adding letters by counting on, and looping round so that e.g. Y + D = C.
