

# PUZZLEBOMB

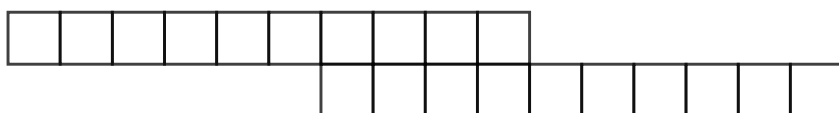

## SNOOTY PUZZLE

Complete each clue with two words. Any letter directly below another is the next letter in the alphabet.

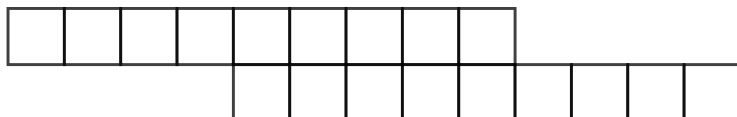

The T-rexes and triceratopses are on the ground floor of the museum, but you'll find the...

No horses were available, which made continuing with the modern...

I still maintain it cured me, but the scientific literature considers the claims made about the...

## SEVEN EVENTS

Each phrase below is an anagram of one of a set of thematic names with an extra letter, which needs to be removed. If the process were to be repeated, the result would be a town in Wales.

- OBJ
- CHOLERA
- JUNO
- BENADRYL
- CULPA
- AHH ANNE
- TRAIN

## FACE TO FACE

In each cell, draw a quarter-turn anticlockwise ↺ or clockwise ↻, or a flip ⇄ between happy and sad, so that for each continuous run of cells starting from a face, the transformations given (reading to the right or downward) result in the face at the other end of the run. No two consecutive arrow symbols may be the same.

Example
